

## Section: Narratives - Needs Assessment

### Introduction

The findings of a recent study showed that there is a significant benefit to students who participate in out-of-school-time (OST) programs. In fact, the Return on Investment of Summer school Programs in Pennsylvania study determined that for every dollar invested in summer school programming for students there was a return of \$6.69 in potential benefits to students, including reduced rates for drop-outs, teen pregnancy, substance abuse, crime and delinquency ([Link PSAYDN.org](#)).

In accordance with the American Rescue Plan (ARP) Act and Pennsylvania Act 24 of 2021 (Act 24), the Pennsylvania Department of Education (PDE) will award approximately \$50,000,000 or one percent (1%) of Pennsylvania's ARP Elementary and Secondary School Education Relief (ESSER) State Reserve funds to support school districts, charter schools and cyber charter schools (collectively, LEAs) in the development and implementation of comprehensive after-school programs to address learning loss in response to the academic, social, emotional and mental health needs of students and subgroups of students impacted by COVID-19 public health emergency that supplement school programs and activities.

Act 24 requires that, when available, existing personnel shall be utilized by school districts, charter schools and cyber charter schools to staff programs and activities established with these grant funds.

Within 90 days of receipt of these allocations, school districts, charter schools and cyber charter schools must submit a three-part plan to PDE, that outlines the proposed use of the grant money, itemized by program and activity. This plan is part of a consolidated application that includes after-school programming, summer programming, and a comprehensive plan to address learning loss. The plan shall include:

- 1) A description of each program and activity
- 2) A narrative outlining the expected benefit of each program and activity
- 3) A budget for each program and activity detailing personnel and operating costs

PDE has developed the Accelerated Learning Toolkit, a significant cadre of resources and trainings, to support LEAs in the development of their plans. The Accelerated Learning Toolkit can be found [Link to Accelerated Learning Toolkit](#).

**Section 1 - Needs Assessment:** In this section, LEAs are asked to describe the impact of the pandemic on their students since March 2020.

### Indicators of Impact

1. Describe how the LEA identified students for inclusion in a summer school program. Include a brief description of the indicators used in the decision-making process.

Students identified as needing reading support through Title 1, and AIMSWEB testing, are encouraged to utilize the District's library over the summer.

**Section: Narratives - Summer School Program Questions**

**Summer School Program Questions:** In this section, LEAs are asked to describe the activities they have designed to provide summer school programming for their students.

2. Identify the target student-group for the summer school program. Will the focus be on academic growth, social and emotional wellness, or some other factor to support student growth? For each group, provide specific strategies that were used or will be used to identify and measure impacts.

Student Group	Area of Focus	Number of Students Served	Provide specific strategies that were used or will be used to identify and measure impacts
Children with Disabilities	Academic Growth	99	The District continues to use Title 1, and AIMSWEB testing to identify and measure the impact summer library services has on identified students.

3. Describe the evidence-based resources that will be used to support student growth during the summer school program.

Title 1 and AIMSWEB testing will provide evidence-based resources to support student growth and progress as a result of making library services available during the summer.

4. Describe the staff that will provide the summer school program (i.e., internal staff or outside resources).

Number of Staff Members	Internal/Outside Provider	Role
1	Internal Provider	Provide access to books and reading materials, and aid in the selection of proper level books to increase reading proficiency.

a. The LEA assures it understands it is responsible to offer the work to its internal employees prior to engaging outside entities.

b. The LEA assures it understands it is responsible to ensure that all summer school program staff hold the appropriate certifications for the program that is being delivered.

5. How will the LEA assess the success of the summer school program? Please identify the tool, frequency of use, and expected results.

Tool Used to Evaluate Success	Frequency of Use	Expected Results
AIMSWEB Testing	3 times a year for identifying students. Weekly for monitoring special education students progress.	Improvement in testing scores as a result of library services being available during the summer.

6. How will the LEA engage families in the summer school program?

Parents are kept informed and encouraged to attend the summer summer library services with their child. Most parents provide their own transportation for the summer library, however transportation services are available for those in need.

**Section: Budget - Instruction Expenditures**

Instruction Expenditures

**Budget**
