2023-2024

A partnership between Neshannock Township School District
and

Seton Hill University/University of Pittsburgh/Duquesne University

College in High School Program

College in High School has been designed to accelerate top students to college-level academic preparation while taking high level high school courses.

The program leads to college credits earned for freshmen level courses which are required by most universities.

Benefits to earning college credits in high school

- ❑ Credits MAY be transferable to most universities and colleges for similar courses. (not all colleges/programs accept transfer credits)
- ❑ Students may graduate (college) early.
- ❑ Tremendous savings in college tuition expense.
- ❑ Students may earn a dual major with the additional time available at college.
- ❑ Students may take lighter semesters at college during peak academic or athletic times.
- ❑ Signifies to college acceptance officials the student's readiness for higher education.
