NOTE: Space is limited; Registration is **required.** A Microsoft TEAMs link will be sent prior to the event.

The FAFSA asks for information about you and your financial situation. If you're married, you will need the same information for your spouse. If you're considered a dependent student, you will need your contributor's information, too. Visit **pheaa.org/resourcesStudents** for more information.

Before filing the FAFSA, gather the following items:

- Your Federal Student Aid account username and password (FSA ID).
  NOTE: This may take time to process, so we recommend creating your account 4 days prior to filing the FAFSA. Visit **StudentAid.gov/fsa-id** to create your account.

- Your Social Security number

- Your alien registration number, if you are not a U.S. citizen

- List of colleges or career schools you want to include on the FAFSA

- Name, date of birth, email address, and social security number of each contributor to the FAFSA

- Your 2022 federal income tax return 1040 and accompanying schedules
  NOTE: If you complete your FAFSA online, you will automatically retrieve your income and tax data from the Internal Revenue Service (IRS) and have it transferred into your FAFSA. The Federal Student Aid Direct Data Exchange is the preferred method to complete the FAFSA.

- Your current bank statements and records of stocks, child support payments, bonds, 529 plans, business and farm assets, and other investments including real estate (but not including the home in which you live)

- A personal email address (not a school email address)
